Personal Profile

I am currently seeking a role within the software development sector. I have a real interest in this field and enjoy researching new software and programmes. I have good communication skills and listen carefully to others and follow instructions. I am fluent in English and Spanish. I have had the opportunity to gain valuable work experience and fully comprehend what is expected of me in a professional workplace. I enjoy problem solving and working within a team to achieve results. Some coding languages I have studied are Python, Javascript, HTML, CSS, SQL and Java.

Education and IT Training

11/2022 - 03/2023 **Just IT Training Ltd, London**
Digital Skills Bootcamp: Software Development
A twelve week intensive bootcamp covering the fundamentals of Web and Software development. Some of the coding languages we have covered are HTML, CSS, Python, Javascript and SQL. During this course I have created a website and a few projects.

10/2020 - 03/2022 **LDN Apprenticeship level 3 - Equivalent to A levels**
I have attended college one day a week and the other 4 days in the office. I studied a wide range of areas within IT from hardware to software. The qualifications from this apprenticeship are listed below.

BCS qualifications:
- Level 3 Infrastructure technician (Grade: Distinction)
- Networking and Architecture
- Mobile and operating systems
- Cloud Services
- Business Processes
- Coding and logic

2013 - 2018 **Brampton Manor Academy, London**
GCSE:

Combined science: Trilogy 7-7	English Literature 6
Computer science 5	History 5
Spanish 7	Psychology B
English Language 6	Religious Studies 6
Maths 5	

IT Skills

Core Programming Languages: Python, Javascript, HTML, CSS, SQL, Java

Projects: All my projects can be found on my website (jakedavis.uk). It also has a link to my Github if you want to see my code.

Employment History

10/2020 - 03/2022   **IT Support (part of the apprenticeship)**
I have had the privilege to work in an IT help desk team. I have learnt many skills in problem solving, communication and using different software such as G Suite admin, AD, Okta, Jira, Intune, Amazon Workspace. In addition to this, as this is a level 3 Infrastructure apprenticeship I have also attended college one day a week and gained a level 3 Infrastructure Technician distinction with a few other additional qualifications.

01/2017 - 03/2020   **Skyline social**
As a lead generation specialist my Role involves effective communication with Skyline Social & potential sales, to increase the amount of leads. Receive training on SEO meta data and how to generate a following.

Interests and Achievements

Computing: I have always been interested in computing from a young age, which means I have learnt how to make my own PCs, solve internet issues, help fix many different bugs, software and hardware issues both on my PC and other family members (and clients if you include work) who have technical issues with their tech devices. Of course I also enjoy coding and currently spend most of my spare time learning and creating coding projects.

Hobbies: I really enjoy reading if I manage to find a book that interests me, in addition I enjoy video games, and youtube tech videos. I also like practising my Spanish and occasionally studying Japanese.
